There were three restaurants on the same block. One day one of them put up a sign which said "The Best Restaurant in the City." A lorry driver is driving 100 penguins to London Zoo when his lorry breaks down on the motorway. The driver gets out of the cab and is looking at the engine when a second lorry driver stops in front of him and asks if he needs help. The penguins' driver explains that he is taking the penguins to the zoo and asks if the other man would take them there. He agrees. Some hours later, the second lorry driver drives past the first one, who is still waiting on the motorway. The penguins are still on the lorry, and look happy. "I thought I asked you to take those penguins to the zoo," shouted the first driver. The second replied, "I did, but I had some money left, so we're going to the cinema now."

- In the third year, they both speak and the neighbours listen.

A butler came running into his important master's office.

"Sir, sir, there's a ghost in the corridor. What shall I do with him?"

Without looking up from his work the master said, "Tell him I can't see him."

"In some countries," said the geography teacher, "men are allowed more than one wife. That's called polygamy.

In others, women are allowed more than one husband. That's called polyandry.

In this country, men and women are allowed only one married partner.

Can anyone tell me what that's called?" "Monotony, sir!"
